October 26, 2019

**Beginning Line Coding for Kids Workshop (Part 2) presented by Spark4Learning (Staples YL)**

**5511 Mirage Street**

12:00 PM - 1:00 PM

Tammy Guerrero, 714-328-3988

Spark4Learning@gmail.com

*Inspire your kids to go from consuming technology to creating it with Ozobots - the intersection of coding and creativity! Let Spark4Learning get them started!*

*About this Event*

*Ozobots are amazing little robots that we will use to learn the basics of beginning line coding. Students will use markers and paper to create a simple path for an Ozobot to follow. Coding is the process of creating a program for an avatar or a robot to run.*

*Ozobots will follow specific colored lines, and if the user adds certain color codes, the Ozobot can follow the instructions and know which way to turn at a line intersection, whether to speed up or slow down, when to pause before proceeding when to proceed in a zig-zag, when to stop and spin, and more!*

*This class is for children from 5-11 years of age. A parent or legal guardian must accompany the minor (and be present in the Staples store) throughout the duration of the event.*

*\*NOTE: New attendees are welcome. We meet you at your level and grow together! For this workshop we aim to create tracks for our Ozobots to race, do tricks, and/or play a game.*

*Tickets can be purchased for \$10 (plus a \$2.24 EventBrite fee) at this EventBrite link for the October 26th, 2019 event:*
